To whom it may concern

RE: Letter of reference for Nasif Allie

I and the rest of the events team at Coolcumba Communications have had the pleasure of working with Nasif since 2006. As our AV, lighting, staging, speaker presentations and general "techie" expert, we feel totally confident in his ability to deliver at high level conferences. This is the area, which in my opinion determines the ultimate success of any event, and to date I have put all my trust in Nasif because of this knowledge, commitment and desire to be the best at what he does.

I recommend Nasif to other companies and wish him well in his future business ventures.

Yours sincerely
